

Resolution H-60

Because members of the Customs and Immigration Union Local 20040 in Vancouver affiliated to the Public Service Alliance of Canada, are proud BC Federation of Labour members since 1977; and

Because seven of this Local's members holding the position of Recourse Officer are being forced into an affected/surplus situation due to their work being removed and sent to Toronto and Montreal; and

Because these members are in a highly-specialized field of employment, making good union wages in the province of BC; now

The Federation will support these members in their struggle to retain their work in by by sending a strongly worded news release to various media outlets; and

The Federation will through the President send letters of condemnation to the Prime Minister of Canada and the Minister of Public Safety for removing those essential jobs from this province.
